Schroer Plant Farms

FRED SCHROER, JR.

HERBERT SCHROER

Growers of Vegetable Plants

VALDOSTA, GEORGIA

PHONE CH 2-8230

Our plants may seem a little high in price in comparison with other prices. It is important to have plants grown from high grade selected seed. Low grade cheap seeds do not produce good plants true to variety. SCHROER'S Plants Are Always Grown From High Grade Selected Seed.

We operate one of the most up to date Plant Farms in the South—

About 1000 acres for growing plants.

Our plants are grown from the very best seeds, and only Number One Plants are being shipped—tied 50 to bunch.

Tomato and Pepper Plants are wrapped in paper with moss around roots. This will bring them to you in the very best growing condition. Shipping Tomato Plants from April 1st to June. Pepper April 10th to June.

FROST PROOF CABBAGE PLANTS

Cabbage Plants Ready for Shipment March 1st.

Stein's Flat Dutch: Large, flat-headed variety popular for home gardens. Similar to Premium Late Flat Dutch, but earlier, with smaller heads. Heads large, firm, flat and 6 inches deep.

Ferry's Round Dutch: A ball-shaped cabbage that is fine for market or home use. Firm, and weighs four to five lbs.

Copenhagen Market: This is an early round headed variety maturing approximately with the Wakefield, but is of larger size, weighing from five to eight pounds each and is a favorite of the northern gardener.

Golden Acre: Has all the wonderful characteristics of Copenhagen Market but the heads are smaller and mature about ten days earlier. They are very uniform, solid, round and weigh 3½ to 4 lbs. each. A valuable extra - early cabbage for the home garden and a profitable one for truckers to plant for early market.

RESISTANT GOLDEN ACRE: (Yellows Resistant) An early strain of Golden Acre. A few days earlier than our regular Golden Acre and more bluish-green in color.

Resistant Detroit: (Yellows Resistant) A valuable addition to the round-head varieties. Golden Acre type with heads averaging 3½ lbs.

Marion Market: (Yellows Resistant). Resembles Copenhagen Market but makes a larger plant. Heads almost round, solid and weighs 4 to 6 lbs. each. Favorite early variety for market or home use, on "yellows" infested land.

Resistant Glory: (Yellows Resistant): Quite similar to Glory of Enkhuizen but with resistance to Cabbage Yellows. Heads are rounded and firm and more uniform than Globe.

ONION PLANTS

Onion Plants Ready for Shipment March 1st.

Crystal Wax and White Bermuda: The best Onion grown, and sells for the highest price. Well known for its mildness and sweetness, and attractive appearance. This variety is a money maker.

Excel Yellow Bermuda: An extremely early and well bred strain of yellow Bermuda. Bulbs rather small, flat, light yellow; flesh white, soft and mild.

Yellow Sweet Spanish Utah Jumbo: The finest Sweet Spanish for growers and shippers. Produces heavy tonnage per acre and stores over entire winter with remarkably low shrinkage. Vigorous grower and overcomes thrip damage. Bulbs are large and perfect globe shape.

Prizetaker: Extra large onion under good growing conditions and a heavy producer. Skin is thin, of a good golden brown tint, and the flesh is pure white, solid, crisp, juicy an agreeably mild.

CERTIFIED PEPPER PLANTS

All pepper plants are grown under a specialized spray program thus insuring that no diseased plants are shipped. We comply with all Certification Requirements.

California Wonder: The leading market garden and shipping variety. Flesh is extremely thick and firm and has a sweet distinctive flavor. Deep green color becoming bright red at maturity.

Oakview Wonder: An outstanding strain, unsurpassed for shipping and very popular for home and market garden. Earlier and more productive than California Wonder with shorter, stockier plants.

Yolo Wonder: Four lobed fruits of the California Wonder type with the added advantage of being mosaic resistant. Flesh is thick, firm and sweet. Dense foliage protects fruits from sunscald.

Hungarian Yellow Wax (Hot): A very early hot pepper desirable for home, market, garden, or canning.

CERTIFIED TOMATO PLANTS

All our Tomato Plants are grown on disease free land, under State Inspection. We comply with all Certification Requirements, such as disease free seed, true to name varieties and proper spraying. Ready to Ship April 1st.

Valiant: This has proved a money-maker as an early market tomato. Maturity 69 days, large globe shaped fruit, heavy yielding ability over long period.

Homestead 24: Wilt Resistant—83 days. Fruit medium large, firm and meaty. Plants give good fruit cover and set well in hot weather. This variety is rapidly becoming a favorite for local market, green wrap, pink shipping and canning.

Rutgers: Maturity 80 days. An excellent all-purpose variety and especially good for canning. Partially resistant to fusarian wilt, bright red, smooth, globular fruit, and small seed cells.

Campbell 146: Both Crack and Wilt Resistant. Maturity 78 days. Introduced by Campbell Soup Co. Fruit uniform ripening, globe to slightly flattened globe, weighing about 7 ozs. Medium vine gives protection from sun scald yet open enough for good ripening.

CERTIFIED SWEET POTATO PLANTS

Red Gold Rush: Good early market potato maturing in 90 to 110 days with a very high yield—grading 75% No. 1's, with no cracks. One of best canning potatoes. Dark Red colored exterior and golden flesh.

Centennial: Ready to harvest in 100 days. A new variety released by Louisiana Experiment Station in 1960. A high producer, stores well, a good canner, excellent eating qualities. A golden skin with deep orange inside color.

Caro Gold: This potato released by the South Carolina Experiment Station a few years ago is capable of producing the highest yields—600 bu. per acre with 400 bu. of No. 1's has been produced on our farms. Light orange velvet skin of unusual smoothness, deep orange inside color. Good flavor and good for canning.

Georgia Red: Wonderful seller for the later market. Excels as an eating or baking potato. Deep red skin with orange flesh. Good yielder.

In the Fall write for prices on Pecans from our new orchards. Pecans shelled or in the hull make wonderful Christmas presents for friends, customers and employees as well as for one's own cooking or enjoyment. These pecans of a new variety are tops for flavor.

GENERAL INFORMATION TO CUSTOMERS

Write for prices on large quantities and truckload lots. In some communities, larger growers combine their orders and send a truck for their plants.

For garden fresh plants, order shipment by Air Freight. You can order 5,000 or more plants one day and receive them the next day at your nearest major airport. The cost will be approximately 50% more.

BE SURE THAT YOU HAVE INCLUDED YOUR STREET ADDRESS OR ROUTE ON YOUR ORDER AND STATED THE NAME OF THE TOWN CLOSEST TO YOU WITH AN EXPRESS OFFICE IF THERE IS NOT ONE IN YOUR TOWN.

FOR A MINIMUM SHIPMENT OF 1000 A COMBINATION OF PLANTS MAY BE ORDERED PROVIDED THEY ARE IN SEASON AT THE SAME TIME AND CAN BE SHIPPED ON THE SAME DAY.

Due to limited express service, we are not always able to ship order on date received. Many Express Offices are closed on Saturday and Sunday and we cannot ship your order on days that they would arrive on Saturday and Sunday.

All Certified Plants are Government Inspected against diseases and insects.

All Plants for shipping are tied in bunches, holding fifty plants except onions which are 100 to the bunch. We guarantee full count and safe delivery. We label each variety. We ship all plants in ventilated crates and baskets.

All our Plants are open field grown, large, healthy, and well rooted, and ready for field setting.

Our Prices are subject to change.

We can be depended upon for Honest Service and Quality Plants.

Our Guarantee: We guarantee all plants to be in growing condition on arrival, but we give no warranty, expressed or implied, as to description, quality, productiveness, of any plants we send out, and will not be in any way responsible for the crop.
